Maricopa County Department of Public Health INFLUENZA UPDATE September 29, 2013 through August 9, 2014 Posted August 15, 2014

NOTE: Maricopa County Department of Public Health will now be sending out bi-weekly combined influenza and RSV surveillance reports as summer surveillance commences beginning in week 29. Any positive rapid tests with collection dates AFTER July 15, 2014 will not be counted as confirmed cases (unless other positive tests are available for that case). We will resume weekly reports and counting rapid tests in the fall.

Individuals with Laboratory Confirmed Influenza

The 2013-2014 influenza season starts on 9/29/2013 (week 40) and continues through 9/27/2014 (week 39). This influenza season (2013-14), there have been 6,686 individuals confirmed with an influenza test, 1 case were reported this week. On October 4th, 2013, the first locally-acquired influenza case was confirmed at the Arizona State Public Health Laboratory. The state of Arizona reported **sporadic** activity for week 31 & 32 (7/27/2014 - 8/9/2014). The chart below shows influenza laboratory test results for each week for the current season (red) and previous seasons.

Types of Influenza

This influenza season two types of influenza have been reported. Table 1 shows the number and percentage of tests reported by influenza type and subtype.

Table 1. Types/Subtypes of Influenza by Test, 2013-2014 Season, Maricopa County					
Total	6686	100.0%			
Type A	4960	74.2%			
Subtype 2009 H1N1	694	14.0%			
Subtype H3	38	0.8%			
Subtyping not performed or unknown	4228	85.2%			
Type B	1617	24.2%			
Type Unknown	109	1.6%			

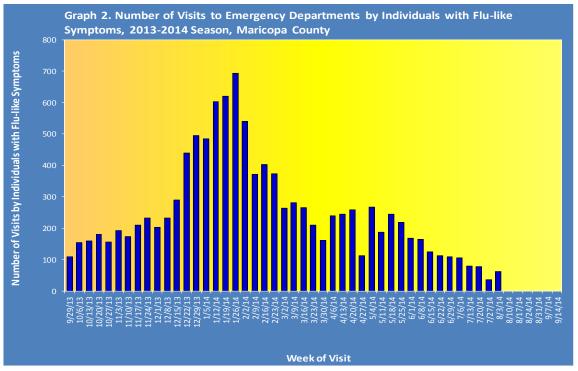

Pneumonia and Influenza (P&I) Deaths

This influenza season there have been 1,178 pneumonia and influenza (P&I) deaths (including 38 influenza-associated deaths in adults and 1 pediatric death). The number of deaths due to influenza has increased (from 26 last season compared to 39 this season). Table 3 shows the number of P&I deaths and the number of influenza deaths that occurred this season and last season.

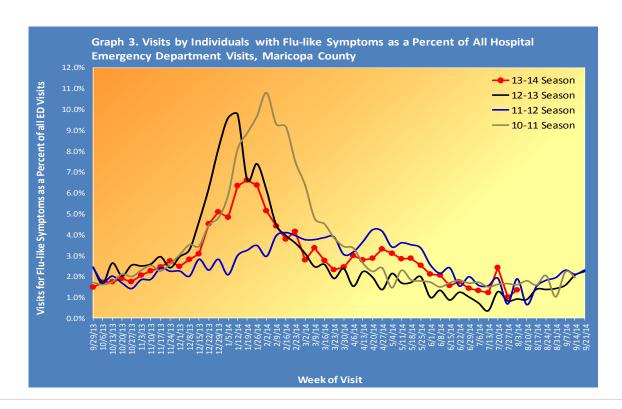

Table 2. Pneumonia and Influenza (P&I) Deaths, 2013-14 & 2012-13 Seasons, Maricopa County						
	Current Season (2013-2014) As of		Last Season (2012-2013) As of			
	[8/9/2014]		[8/10/2013]			
	Pneumonia and	Influenza	Pneumonia and	Influenza		
	Influenza		Influenza			
Pediatric (Under Age 18)	6	1	11	0		
Adult (18 and Over)	1172	38	1205	26		

Respiratory Illness Activity at Hospital Emergency Departments

This influenza season there have been 11,301 visits to emergency departments by individuals with flu-like symptoms. To be counted as an individual with flu-like symptoms, the patient must have both fever and cough or sore throat. Graph 2 shows the number of patients with flu-like symptoms seen at 14 emergency departments.

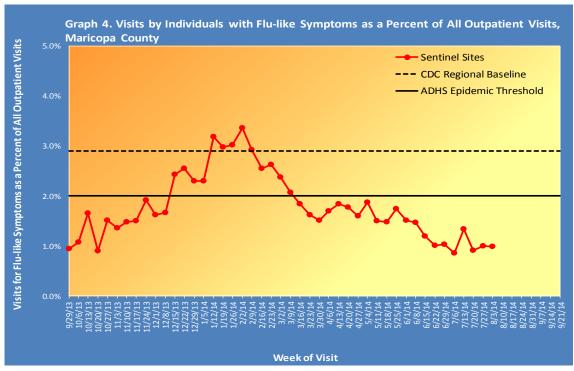

Graph 3 shows what percent of all emergency department visits were individuals with flu-like symptoms (fever and cough/sore throat). The graph shows the trend week by week, with the current season in red.

Respiratory Illness Activity at Sentinel Site Outpatient Facilities Reported to the Centers for Disease Control and Prevention (CDC)

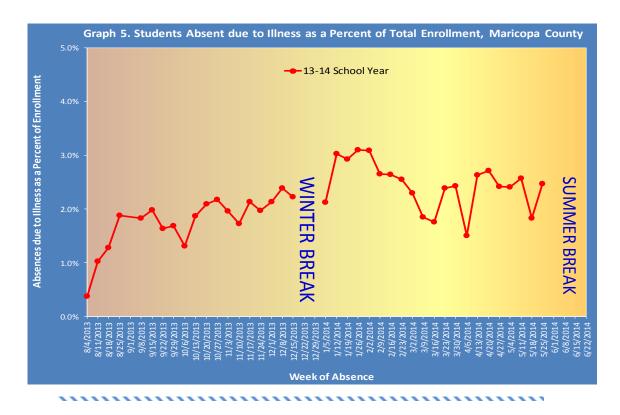

Maricopa County sentinel sites (outpatient facilities) report visits due to flu-like symptoms and the total number of visits seen each week to the Centers for Disease Control and Prevention (CDC). This percentage is then compared to the CDC baseline and Arizona Department of Health Services (ADHS) epidemic threshold each week to determine the level of influenza activity. This week, 1.04% of visits at outpatient facilities were due to flu-like symptoms.

Sources: Adelante Healthcare, Arizona State University Health Services, Cigna Medical Group, Wesley Health Center

Illness Activity at Schools

Graph 5 shows the percent of enrolled students in public schools who were absent due to illness (flu-like, gastrointestinal, other respiratory, etc.) as reported by their parents. The chart shows the trend week by week, for the current school year. Beginning week 23, school surveillance will be suspended due to summer break.

The Maricopa County Department of Public Health wishes to thank all of the influenza surveillance participants:

Arizona Department of Health Services

Local Hospital Emergency Departments & Infection Control Practitioners

Local Outpatient Facilities and Medical Directors

Maricopa County Public Schools

Maricopa County Office of Vital Statistics
